Title	University Chair on Innovation
Description	The overall objective of this project is bridging the gap between the innovation needs of industry and the supply of universities by establishing a "University Chair on Innovation" in 5 MEDA Countries. The project has been identified because of the emphasis in MEDA countries on the role of education in the need to create a workforce that is comfortable with technology and capable of knowledge work. Further, the long-term goal of the governments is to create an innovative entrepreneurial society and it recognizes the need for change at all levels in the education system.
Specific Objectives	<ol style="list-style-type: none"> 1. Establishing a university Chair on innovation in the MEDA Region 2. Developing Technology Transfer Policy and Training the Chair Operators 3. Initiating a re-skilling program on innovation 4. EU MEDA Twinning MSc Thesis program 5. Developing an EU-MEDA Virtual Environment and Strategy for university-Industry Cooperation in innovation

Subject area	Teacher training, higher education reforms
Title	Nouveaux cursus en Management des activités de Services et de la Technologie, Amélioration des processus qualité des enseignements et développement des services aux étudiants
Description	This project wants to modernize curricula by introducing technological management and management of services activities among PC universities. This modernization will introduce new courses and will induce creation of new degrees at master's level. This will also induce courses for vocational from companies and from public administration. Such objective should favour modernization of curricula and teaching methods from PC members. This project will also increase capacities of partners to offer new services to students, to implement a quality insurance process for teaching activities and internal services from PC universities. This project will also increase PC member's openness towards companies and should increase governance methodology from PC HEI.
Specific Objectives	Ce projet a pour finalité la modernisation des programmes d'enseignement supérieur et méthodes pédagogiques dans les institutions méditerranéennes partenaires, le développement des processus de qualité en leur sein et des capacités de services aux étudiants et d'ouverture vers la société. Cette modernisation donnera lieu, suivant les besoins de chaque institution partenaire, à l'introduction de nouveaux modules et/ou à la création de nouveaux cursus complets, au perfectionnement des enseignants aux méthodes pédagogiques nouvelles et à la création d'une plateforme de partage des ressources pédagogiques et de formation en ligne.
